

SLFPA–E
Coastal Advisory Committee
(CAC)
Tentative Recommendations for
Pontchartrain Basin
Coastal Priority Projects

May 20, 2010

Direction to CAC

Coordinate Quarterly Reviews to monitor the status of coastal projects in the Pontchartrain Basin. Initial goal to develop an inventory of Pontchartrain Basin coastal projects that:

- 1) could enhance storm protection and
- 2) are ready to be implemented ASAP (funded and under construction or currently funded and pending implementation/construction).

Project Fact Sheet Format

- 1. Project Name and any agency ID number:**
- 2. Brief Description and Purpose:** (rip rap and shoreline protection)
- 3. Project Location:** (approximate lat/long)
- 4. Project Sponsor:** (agency, parish, private)
- 5. Total Estimated Construction Cost:** \$
- 6. Total Funds currently available for Construction and source:** \$
- 7. Total Construction Expenses to date:** \$
- 8. Brief Description of items/tasks requiring action prior to Construction:**
- 9. Project Schedule**
 - Design Completion:** (month/year)
 - Construction Start:**
 - Construction Completion:**
- 10. Preparer:** (name, telephone number, email address)

CAC Meetings

- 30 projects identified
- April 7, 15 projects reviewed
- April 20, 12 projects reviewed
- Types of projects
 - River reintroductions
 - Shoreline protection
 - Marsh creation
 - Reef restoration

Tentative Recommendations

- LaBranche East Marsh Creation
- Marsh Land Mitigation Bank Orleans Landbridge
- Caernarvon Outfall Management/Lake Lery
- Black Bay Reef
- Athanasia Bay/Lake Machies Reef
- Manchac Shoreline Mitigation
- Braithwaite Levee Mitigation
- Lake Lery Rim Re-establishment
- Orleans Landbridge Shore Protection, I-10
- Biloxi Marsh – Lake Borgne Shoreline
